

u22::shape::Circle

```
classDiagram
    class u22_collisionable_circle["u22::collision::Collisionable Circle"]
    class u22_shape_circle["u22::shape::Circle"]
    u22_collisionable_circle --|> u22_shape_circle
```

The diagram illustrates an inheritance relationship. A light gray box at the bottom represents the base class 'u22::collision::Collisionable Circle'. A dark blue arrow points upwards from this box to a white box at the top, which represents the derived class 'u22::shape::Circle'. This indicates that 'u22::shape::Circle' inherits from 'u22::collision::Collisionable Circle'.
