

glm::nextFloat

```
graph LR; A[glm::nextFloat] --> B[glm::detail::nextafter]; B --> C[glm::abs];
```

A flowchart illustrating a sequence of three functions. The first function, 'glm::nextFloat', is highlighted with a gray background. An arrow points from it to the second function, 'glm::detail::nextafter', which has a white background. Another arrow points from the second function to the third function, 'glm::abs', which also has a white background. All three functions are enclosed in rectangular boxes with black borders.

glm::detail::nextafter

glm::abs
